CHAPTER 343 - ENVIRONMENTAL ASSESSMENT:

In accordance with the "Division of Land Management's Environmental Impact Statement Exemption List", approved by the Environmental Council and dated April 28, 1986, the subject request is exempt from the preparation of an environmental assessment pursuant to Exemption Class No. 3 that states "Construction and location of single, new small facilities or structures and the alteration and modification of same and installation of new, small, equipment and facilities and the alteration and modification of same including but not limited to : ... (d) water, sewage, electrical, gas, telephone, and other essential public utility services extensions to serve such structures or facilities; ...", and Exemption Class No. 4 that states " Minor alteration in the conditions of land, water or vegetation." A copy of the environment assessment exemption notification is prepared at Exhibit B.

DCCA VERIFICATION:

Not applicable. Government agency.

APPLICANT REQUIREMENTS:

None. Survey map and description provided.

REMARKS:

Under the development of the Sand Island Industrial Park, installation of utilities is completed on the premises. The subject request involves two water meter easements in favor of the Board of Water Supply (BWS). Approval was obtained from the Department of Planning and Permitting, City and County of Honolulu in 1995 designating the easements.

During a recent process for water supply for one of the sublessees at the subject location, representative of the Sand Island Business Association (Lessee) and BWS noted that the subject easements was never finalized, and both parties want to conclude the request as soon as possible.

Staff did not solicit comments from other agencies other than the Lessee and BWS as it is for housekeeping purpose only.

There are no other pertinent issues or concerns, and staff has no objection to the request.

RECOMMENDATION: That the Board:

1. Declare that, after considering the potential effects of the proposed disposition as provided by Chapter 343, HRS, and Chapter 11-200, HAR, this project will probably have minimal or no significant effect on the environment and is therefore exempt from the preparation of an environmental assessment.
2. Authorize the issuance of a perpetual non-exclusive easement to Board of water Supply covering the subject area for water meter purposes under the terms and conditions cited above, which are by this reference incorporated herein and further subject to the following:
 - A. The standard terms and conditions of the most current perpetual easement document form, as may be amended from time to time;
 - B. Review and approval by the Department of the Attorney General; and
 - C. Such other terms and conditions as may be prescribed by the Chairperson to best serve the interests of the State.

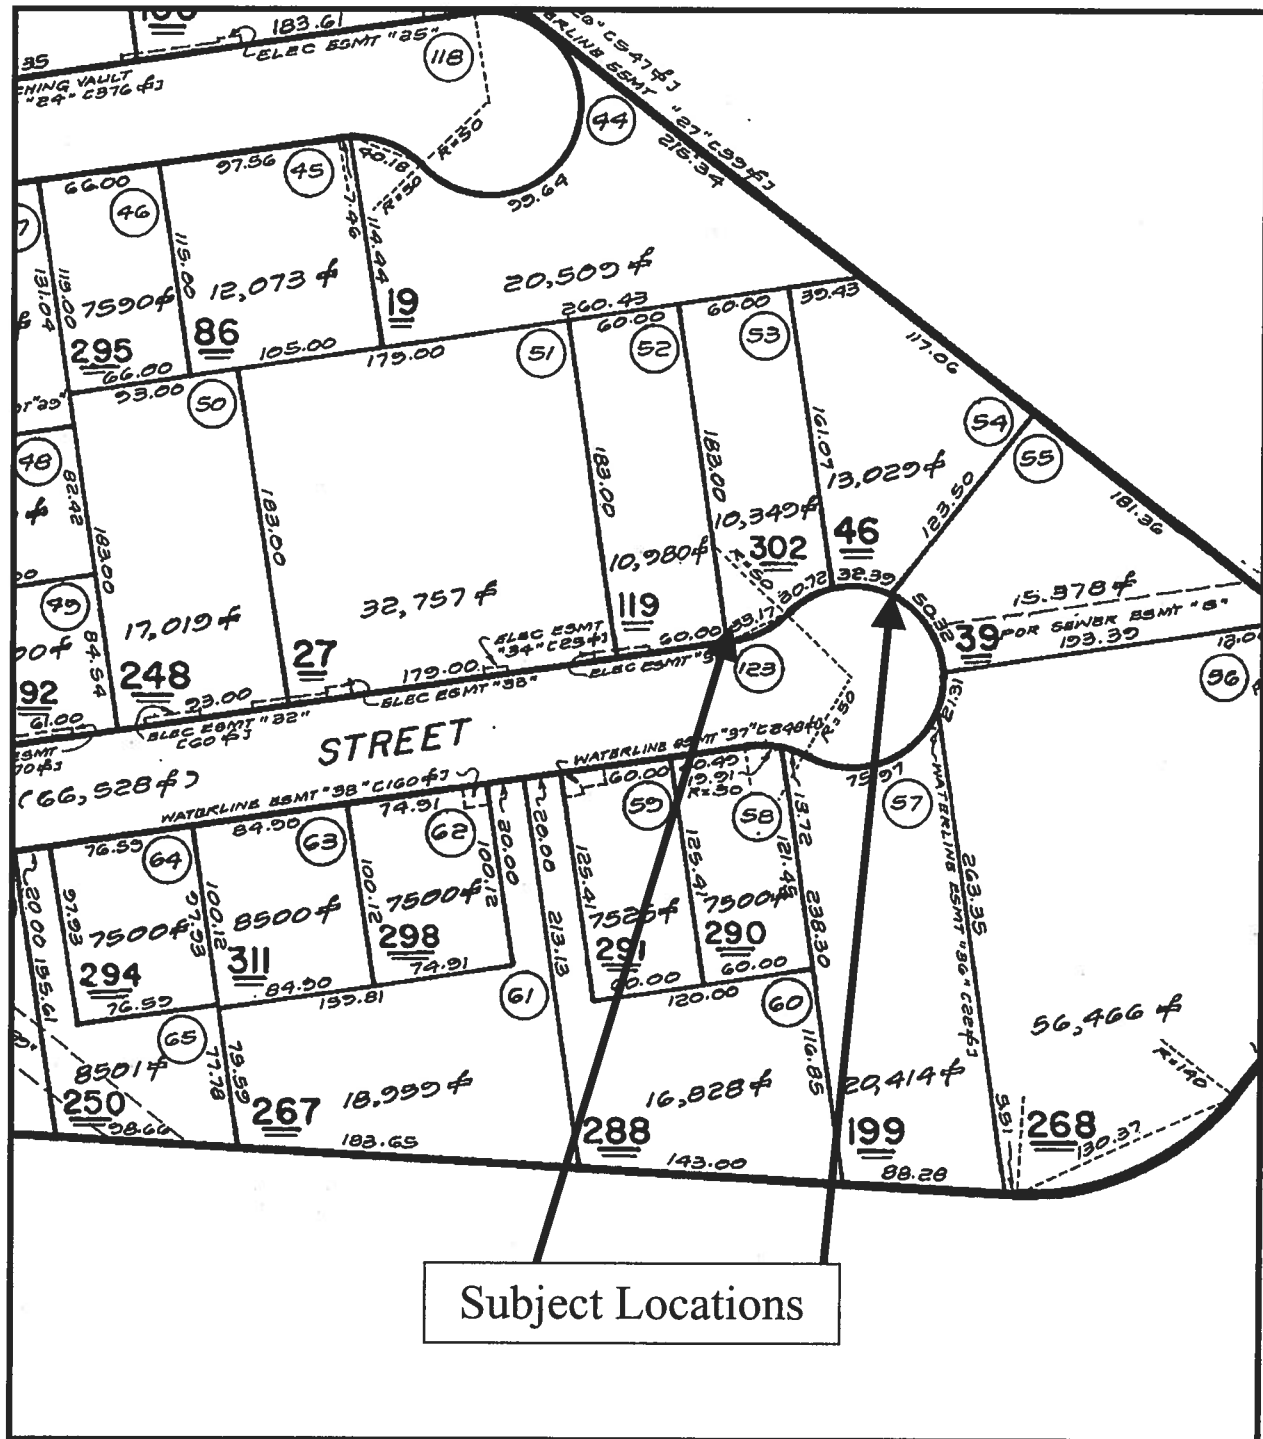

Respectfully Submitted,

Barry Cheung
District Land Agent

EXEMPTION NOTIFICATION

regarding the preparation of an environmental assessment pursuant to Chapter 343, HRS and Chapter 11-200, HAR

Project Title: Perpetual, Non-Exclusive Water Meter Easement to the Board of Water Supply

Project / Reference No.: PSF 10od-190

Project Location: Sand Island, Honolulu, Oahu, TMK (1) 1-5-041:039, 046, 119, 302

Project Description: Issuance of perpetual, non-exclusive water meter easement to the Board of Water Supply

Chap. 343 Trigger(s): Use of State Land

Exemption Class No.: In accordance with the "Division of Land Management's Environmental Impact Statement Exemption List", approved by the Environmental Council and dated April 28, 1986, the subject request is exempt from the preparation of an environmental assessment pursuant to Exemption Class No. 3 that states "Construction and location of single, new small facilities or structures and the alteration and modification of same and installation of new, small, equipment and facilities and the alteration and modification of same including but not limited to : ... (d) water, sewage, electrical, gas, telephone, and other essential public utility services extensions to serve such structures or facilities; ...", and Exemption Class No. 4 that states " Minor alteration in the conditions of land, water or vegetation."

The request is to provide the adjacent industrial lots with water supply with the installation of the water meter. Subdivision was approved by the Department of Planning and Permitting in 1995. The subject easement request only relates to about 576 square feet and the use of the land for water meter does not result in any known significant impacts, whether immediate or cumulative, to
